Discharge to Home

 **3 Hours**
of Therapy per Day

147 
Patients Served

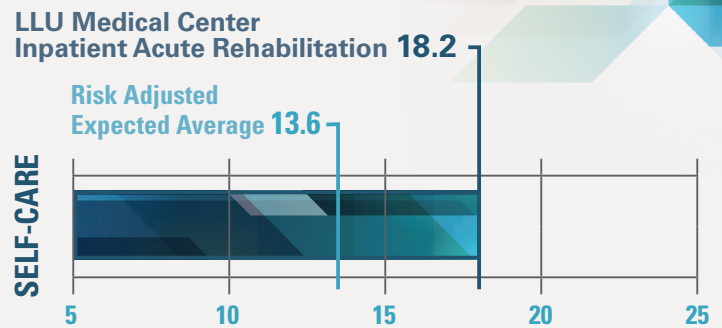

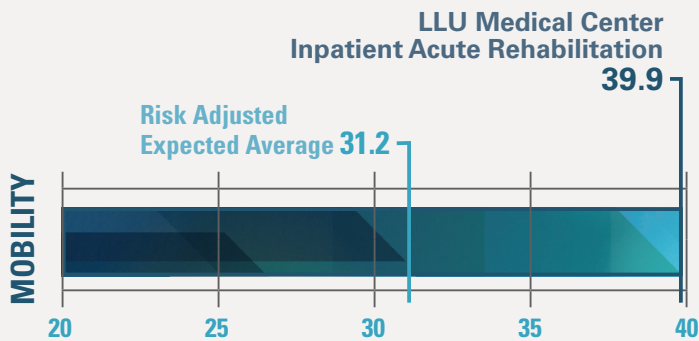

Average Patient Stay **17.8**  DAYS

 **7.5%**
Readmission to Prior Hospital

Average Age **62** Years Old

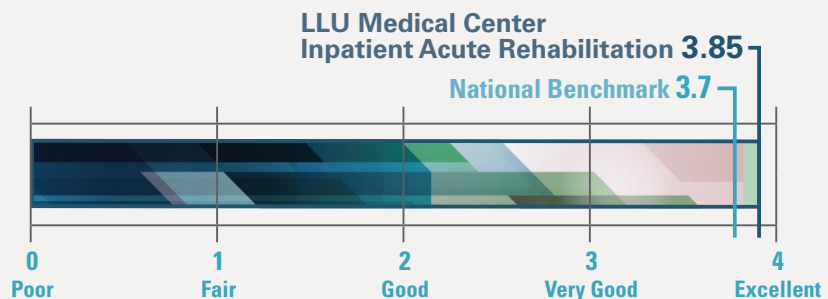

Change in Mobility and Self-Care

Mobility and self-care scoring measures the change in function from the time of admission to the time of discharge. These scales include information on how independent our patients are in activities of daily living such as bathing, dressing, feeding and moving. Higher numbers are better.

Patient Satisfaction

Patient Satisfaction is based on the reported overall satisfaction of our patients during their stay. Ratings are based on a four-point scale.
