

HEART FAILURE SUPPORT GROUP

Our support group provides a safe and compassionate environment for individuals affected by heart failure to connect, share experiences, and receive emotional support. Build a network of support that helps with overall well-being and quality of life.

Join us to discuss challenges, coping strategies, and learn more about treatment options.

Support group led by William Bradley, NP, Division of Cardiology.

We meet quarterly, either online or in-person. For more information, please contact **909-558-4202**.
