

SECURITY ALERT!

LOMA LINDA UNIVERSITY
HEALTH

Memorandum

To: All Students, Staff and Faculty
From: John Marshall, Interim Director – Department of Security
Date: October 30, 2014
Subject: Security Bulletin

Over the last week we have seen a drastic increase in vehicle crimes on campus. Specifically 1990's Hondas and Toyotas are being targeted. Although we have apprehended a vehicle burglary suspect with a criminal history, we would like to encourage students, staff, faculty and visitors to be especially vigilant and aware of suspicious behavior. We are currently working with local law enforcement to address this crime increase and provide any assistance they may need.

Even though most of the activity has targeted Hondas and Toyotas, all automobile owners should be aware of the potential for car thefts and or break-ins.

Here are some important reminders:

- **Do not leave valuables** anywhere inside your vehicle, such as cell phones, global positioning systems (GPS), laptop computers and cases, MP3 players, chargers, book bags, handbags, brief cases, wallets, loose change, and gym bags. Take the items with you or leave them at home. If you must leave items in your vehicle trunk, do so **before** you arrive at your destination.
- **Remove your keys from the ignition.**

- **Lock your vehicle and close all windows.**
- **Use a vehicle alarm system or other anti-theft device.**
- **Report missing or stolen vehicles immediately.**
- **Do not confront the suspect(s),** but be a good witness by noting their physical descriptions, clothing, actions, direction of travel and vehicle, if any.

Report suspicious activity to LLUSS Department of Security at 909-558-4320. Use an emergency “blue light” phone located in most parking lots or dial 911.
