

Hearts Connected Craft

Supplies:

- Paper (printer paper, construction paper, lined paper, pages from a coloring book— anything you may have around the house that can be cut in strips
- Crayons, colored pencils, markers, paint, stickers
- Scissors or paper cutter
- Ruler
- Stapler or tape

Instructions:

Step 1: Decorate paper (if desired)

Step 2: Cut paper in one inch strips – it's especially meaningful to include a name on each strip

Step 3: Fold all strips in half except one. The unfolded strip will become the hanger—a ribbon can also be used

Step 4: Pinch the ends of the hanger together and tuck into the folded edge. Staple to form the hanger

Step 5: Pinch the base of the paper together to create the shape of a heart

Step 6: Place the next folded piece around the base of the previous heart – staple and continue until each heart has been connected
