

Faculty Name:	John J. Kim, MD, MS, FACC
Bio	<p>Dr. Kim has been on faculty at Loma Linda University since 2010 and also completed methods training in Master of Science in Clinical, Biomedical and Translational Investigations at the University of Southern California in 2011. From 2013-2019, he relocated to China and collaborated in clinical research with Sir Run Run Shaw Hospital Zhejiang University. On return, he has served as the GI Laboratory Director at Riverside University Health System with clinical focus in interventional endoscopy including ESD. His research focuses on endoscopic management of acute cholangitis, early GI neoplasms, and upper GI bleeding.</p> <p>In his free time Dr. Kim enjoys spending time with his two young children, participating in the local church, and international travels.</p>
Clinical Focus	Interventional endoscopy
Research Interests	Acute cholangitis, upper GI bleeding, endoscopic management of large colon polyps and GIST
<b>Appointments</b>	
Academic Appointments	Associate Professor, Medicine-Gastroenterology and Hepatology
Administrative Appointments	GI Laboratory Director at Riverside University Health System American College of Gastroenterology International Relations Committee
<b>Professional Education</b>	
Medical School	University of Illinois at Chicago
Residency	University of Michigan, Internal Medicine-Pediatrics
Fellowship	University of Southern California, Gastroenterology
<b>Professional Societies</b>	
American College of Gastroenterology	
American Gastroenterological Association	
<b>Selected Research</b>	
<ol style="list-style-type: none"> <li>1. Du L, Cen M, Zheng X, Luo L, Siddiqui A, <b>Kim JJ</b>. Timing of performing endoscopic retrograde cholangiopancreatography and inpatient mortality in acute cholangitis: a systematic review and meta-analysis.
