Average Patient Stay

FIM Change Admission to Discharge (measured through Sept. 2019)

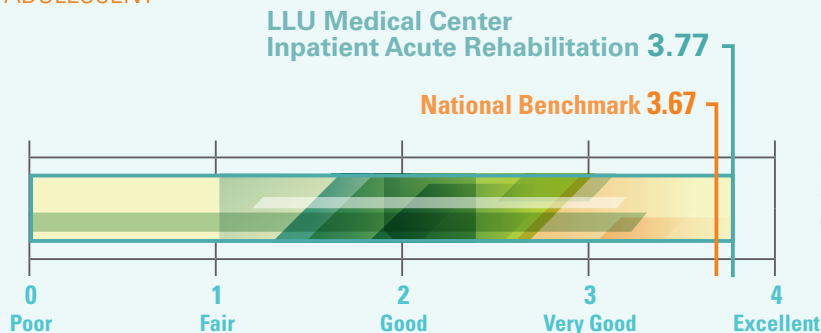

ADOLESCENT

Functional Independent Measure (FIM) measures change in function from the time of admission to discharge. The FIM includes information on how independent our patients are in activities of daily living, such as bathing, dressing, feeding and walking.

Patient Satisfaction

ADOLESCENT

Patient Satisfaction is based on the reported overall satisfaction of our patients during their stay. Ratings are based on a four-point scale.
